

Fair Trade Coffee and Chocolate

This ministry champions the farmers in their growing coffee and cocoa beans in an environmentally friendly manner for a fair price. They do not cut down the rain forest or use chemicals in the growing process. Our buying of these quality products at a fair price allows them to provide a decent living for their family. We serve in this ministry in cooperation with Catholic Relief Services.

Relieving poverty in the world one pound at a time.

Fair Trade is sold at St. Francis of Assisi after Masses on the following weekends in 2009:
